## **YARD CARE:**

**Do I really need to mow all this grass?**

Nope, you don't! We will mow all grass except for your fenced in backyard. You will need to make sure your backyard stays nice and neat; grass no longer than 3"-5" and the area nicely trimmed. The flower bed out front is also a great area to show off your gardening skills and maybe win Yard of the Month! No gardening skills? That's alright. All we really require is that you keep the flower bed weed free.

## ***I thought my rent was automatically taken out of my account?***

For active duty only, your rent is taken out automatically. However: the allotment doesn't kick in until your first full month so you have to manually pay your prorated rent. For all residents other than active duty, your rent is not taken automatically and should be paid in person on the 1st of each month.
