Hunts President Message

For the third year, Hunt Military Communities teamed up with wear blue: run to remember in organizing individual Memorial Day events in our communities. More than half of HMC locations participated in the worldwide event. wear blue: run to remember, a national, nonprofit organization is committed to building a running community that honors the service and sacrifice of the American military. It's expected that over 20,000 runners and walkers around the world became part of a living memorial to America's fallen heroes and a show of support for the families they left behind.

wear blue teams met at various locations worldwide to participate in this run including many HMC locations. The wear blue Memorial Day event uses the power of community and the accessibility of running and walking for community members to become a living memorial through their steps to honor generations of America's fallen heroes. Wear blue: run to remember was started by a Gold Star spouse, who lost her husband in Afghanistan, at the time she had a three year old, a one year old and a three week old.

Participants were provided with the name of an American Service Member who died in battle as well as a unique bib to share the name of the service member whom they honor with their steps. Each run began with a Circle of Remembrance where the name of each military member killed in war is called out.

Thank you to all who ran, walked, and supported this worthwhile event. It is because of your dedication to the cause we are able to honor and recognize our American fallen heroes in such a thoughtful way.

Friendly Reminders and Tips

It is important to keep our community looking nice. In order to insure this we just want to share some ground maintenance tips and rules.

Mowing, raking, and trimming of shrubs and other routine maintenance in fenced backyards are the Resident's responsibility. Grass should be maintained at a height of two inches, not to exceed five inches. Raking of grass and leaves is to be done as necessary to maintain a healthy and attractive lawn. Shrubs are to be trimmed to maintain their shape and not block windows, doors, sidewalks or parking areas.

Do not use or store fertilizers or herbicides in or on the Premises. Plant food for the indoor plants and seasonal fertilizer for annuals, perennials and fenced backyard areas is an exception to this rule.

Residents must maintain any flowerbeds in the front and/or backyard. Do not create new planting beds on the Premises without written approval. Annuals may be planted in existing beds. Introduction of perennials or other permanent landscaping requires written approval from the NMO.

Residents are responsible for the watering of their lawns and planter bed areas. Watering should only be done in the evening, night and morning between 1700 hours and 0900 hours. If your home has an automated irrigation system, the lawn and planter bed areas will be automatically watered based on a set schedule. If an irrigation head or other components malfunction or if there is excessive runoff, please contact the NMO. Residents that violate the Community Handbook watering guidelines will receive a warning notice for non-compliance for the first offense. A written letter requesting a meeting to evaluate and facilitate Resident compliance will be sent to Resident and the Installation Commander or designated representative for second offense. All warning notices and/or written letters will be placed in Resident's permanent file, with a copy to the Resident.

See Ground Maintenance in the Community Hand Book for additional information or contact the management office.
